The meeting was Called to Order at 7:07 P. M. by Council President, K. Wells beginning with the pledge to the flag followed by a moment of silence.

Announcements
1. Council President, K. Wells announced that Person’s on the Agenda would address Council following the Borough Engineer’s Report. She also stated that there would not be an executive session this evening.

Borough Engineer’s Report
1. For the Growing Greener 2 Grant Application, D. Lipinski had to have forms completed by the County Planning Commission and Glen Rock Planning Commission to attach to application. D. Lipinski also had discrepancies between emails and phone conversations with York County and DEP that had to be resolved. D. Lipinski sent the application to DEP after having the application signed at the May Council meeting. D. Lipinski reminded Council that the Borough’s match is $41,250.00 and that this is a reimbursement type of grant so the Borough will have to pay the invoices up front and then submit the claims to DEP for reimbursement. The grant funds total $233,750.00 which will be submitted for a single payment back to the Borough.
2. As discussed at last week’s Planning Commission meeting, D. Lipinski wondered if the borough heard anything about the resubmission for the Glen Rock Vista Plan. The time extension expires in June so action will have to be taken at that meeting unless another time extension is granted.
3. For the Grove Subdivision Plan, a revised plan was submitted to the borough the day of the May Planning Commission meeting so the plan was not reviewed at their May meeting but will be discussed at the June Planning Commission meeting. Although the Planning Commission recommended to the Zoning Hearing Board that sidewalk is installed along the affected properties, the Zoning Hearing Board did not make this a requirement of the variance. Council may still require sidewalk if they so choose.

4. Last month D. Lipinski passed out the cost estimate for the reconstruction of School Street and Wolf Street and discussed the portion of the wall that has shifted. Estimates are as follows: 80 feet of poured in place reinforced concrete wall is $85,000 and 80 feet of K-Rock Wall is $114,000. These estimates are to demolish and replace the wall only; no street work is included in this estimate. Any roadway repairs in this location may fail if the wall continues to push. The construction equipment necessary to reconstruct the street will place additional dynamic load on this section of the wall. Unless the Borough has a record of how this wall was constructed, it is difficult to determine the stability of the wall. D. Lipinski still recommends that the borough hire a structural engineer to perform an analysis of the wall and make recommendations. Another option could be to obtain additional right-of-way from the adjacent property owners and shift the road over, away from the wall. A second guide rail could be added to keep traffic further away from the existing concrete wall.

5. D. Lipinski issued a letter to the York Housing Authority on April 17, 2009 for the Hanover Street project, indicating that council chose to have the proposed private storm sewer installed beneath the sidewalk and tied into the back of the existing inlet. He attached detail with the letter showing how the pipe and sidewalk are to be installed. The letter also indicated to contact James R. Holley & Associates two days prior to the start of work so inspections may be scheduled.

6. D. Lipinski received the New FEMA maps and Ordinance from Councilman Shiles and briefly reviewed it. There are options in the ordinance that Council has to make decisions about. D. Lipinski will meet with the solicitor to review the ordinance, and will make recommendations to Council and request their input on the draft ordinance prior to adoption. Just a reminder, the borough should keep track of all expenses related to the adoption of the floodplain management ordinance, as 50% of the cost will be reimbursed. DCED is supposed to inform the borough regarding the reimbursement procedure and supply necessary forms if applicable.
7. The temporary erosion control measures may be removed from the Borough Borough Park, now that the area is stabilized. Any erosion along the embankment should be repaired and stabilized.

8. D. Lipinski asked if Lester Matthews requested a extension to his Building Permit? The secretary will contact CAI and then notify D. Lipinski with the results.

9. As stated last month, Mr. Colledge let the E & S permit expire for the Field of Broad Springs development and did not extend the permit for earth moving activities. James R. Holley & Associates has submitted the erosion and sedimentation control plan and NPDES permit application on behalf of the owners and are awaiting approval from the York County Conservation District. Once approval is obtained, D. Lipinski will finalize the subdivision plan amendments and forward to the attorney.

Planning Commission Report

1. The Planning Commission has not received any new revisions to the Glen Rock Vista Plans.

2. The Planning Commission submitted information to Council, recommending deleting the following portions of Article III – Zone Regulations of the Glen Rock Borough Zoning Ordinance:
   a. Section 303 Residential-Suburban Zone (R-1), subsection j: Cluster Provision, to include sub bullets (1) through (6), page III-4 and page III-5; and
   b. Section 304 Residential-Urban Zone (R-2), subsection j: Cluster Provision, to include sub bullets (1) through (5), page III-7 and page III-8.

   It is the opinion of the Planning Commission that due to the limited amount of suitable land within the Borough of Glen Rock for development under these provisions, and the potential for future problems pertaining to the wording of the ordinance, that it would be in the best interest of the Borough to delete said provisions of the Zoning Ordinance. R. Shiles moved to accept the Planning Commission’s recommendations, deleting the following portions of Article III – Zone Regulations of the Glen Rock Borough Zoning Ordinance:
   a. Section 303 Residential-Suburban Zone (R-1), subsection j: Cluster Provision, to include sub bullets (1) through (6), page III-4 and page III-5; and
   b. Section 304 Residential-Urban Zone (R-2), subsection j: Cluster Provision, to include sub bullets (1) through (5), page III-7 and page III-8, seconded by L. Cadwallader. Motion carried.

Council discussed and decided to appoint H. Lee Hoffheins as the voting delegate and R. Shiles as the alternate member. D. Eadie moved to adopt Resolution 2009 – 3, appointing H. The solicitor requested authorization from Council, to mail a letter to the owner of 8 Winwood Road, Ronald F. Thomason. K. Wells moved to authorize the solicitor to mail letter to the owner of 8 Winwood Road, Ronald F. Thomason, seconded by R. Shiles. Motion carried.
