Announcements
Council President K. Wells announced that Council would be recessing for Executive Session after the Borough Engineer’s Report to discuss litigation.

Person’s on the Agenda
1. Jon Page, owner of 31 Cottage Avenue, asked Council for the Borough’s procedure for determining whether properties involved in a fire must be demolished or re-built. Council indicated that the Borough must give all property owners a reasonable amount of time to make their decision. Ms. Page expressed concern that although she is ready to make her decision regarding her property, she would like to know the decision of her neighbors, prior to making a final decision. Scott Knaub, Cameo Services, (did not follow the borough’s procedure to be placed on the agenda), presented Council with his own questions regarding collection of fees for services Cameo provided, as directed by the Building Code Official (BCO).

*J. Glatfelter arrived for the meeting at 7:15 P. M.

The solicitor stated that it is not the Borough’s responsibility to pay for any outstanding fees, as a result of the Cottage Avenue fire. After further discussion by Council, J. Peters moved to schedule a meeting with the BCO, the solicitor, the secretary and Mayor, and several council members, to
discuss the borough’s procedures and follow up needed related to the Cottage Avenue fire, seconded by J. Glatfelter. Motion carried.

2. Ken Dry, owner and resident of 133 Manchester Street provided Council with a detailed description of his possible harassment by the officers of the Southern Regional Police Department. Council may not intervene and act on a borough resident’s behalf and said that he needs to contact SRP with his concerns. Council directed Mr. Dry to go to Southern Regional Police Department to file his complaint.

3. Jill Lutz, owner and resident of 36 Hayward Heights, expressed concern regarding the number of rodents, including ground hogs, skunks, rats, and raccoons, in her yard this summer, possibly as a result of several vacant properties along Church Street with high grass and weeds. Council currently has a procedure in place. Residents with concerns should file a Complaint Form, so concerns may be immediately addressed. Mrs. Lutz expressed her support of the installed sign at 3 Main Street. She asked who to contact with suggestions for completing the sign and was told that the sign was purchased by the GR Fire Company and the GR Borough is the owner of 3 Main Street.

4. Keith Godfrey, property owner, non-resident of Glen Rock Borough (did not follow the borough’s procedure to be placed on the agenda) shared his views regarding the borough’s Rental Ordinance, asked Council to provide clear guidance as to why he needs to make upgrades to his rental properties, and stated that he will not be making any repairs to his rental properties located in Glen Rock Borough.

**Borough Engineer’s Report**

1. Additional funding of $27500.00 through DEP has been located for the Growing Greener II Grant, making the total of the grant the original amount of $233,750.00. The engineer will have to modify the application and re-submit to incorporate the additional funding. The borough does not currently have a contract with DEP, but may have a contract by December, 2009.

2. A completion report will be filed with Municipal Services for the Wolf Street project. D. Lipinski anticipates a final invoice from Stewart & Tate for the November Council meeting.

3. The previous recommendation to pay H & H General Excavating $5575.00 from Liquid Fuels Fund for the Terrace Heights project has to be revised, because $575.00 of the project was used for bank restoration and stabilization and these fees are not allowable expenditures through the Liquid Fuel Fund. H & H General Excavating will submit new invoices to the borough breaking out the pricing for each part of the project.
4. Engineer reminded Council to keep moving forward on the School Street project.

5. Reimbursement forms should be forwarded from DCED for the new FEMA maps and ordinance.

6. Lester Matthews has indicated that he is out of money and is not able to finish his retaining wall project at this time. The engineer asked if the borough can do something to prevent this from happening in the future, like having an applicant post a surety bond for the improvement prior to obtaining a building permit. The solicitor has begun researching this topic and is still looking for more information.

7. D. Lipinski forwarded the borough information on a potential funding source for infrastructure projects through the PA Infrastructure Bank. The School Street wall could fall into this category.

8. New information regarding the sign replacement requirements imposed by Penn DOT was forwarded to the borough. D. Lipinski stated that public agencies will have until January 2015 to replace any regulatory, warning, or post-mounted guide (except street name) signs and until January 2018 to replace any street name signs and overhead guide signs that are identified by the assessment or management method as failing to meet the minimum retro reflectivity levels.

9. A. Merrick asked for a motion authorizing the engineer to assist the secretary to file the National Flood Insurance Program report. K. Krebs moved to authorize the engineer to assist the secretary to file the National Flood Insurance Program report, seconded by J. Peters. Motion carried.
