GR Planning Commission’s Report
No report.

*Since Jerome Litz was not currently present for the meeting, “Person’s on the Agenda” was skipped, and the engineer was asked to provide his report.
Borough Engineer’s Report
1. D. Lipinski noted that it is too late for Council to consider possible street work projects for 2010 and suggested thinking about what street work projects they would like to consider for 2011.
2. The Growing Greener Grant application has been submitted to Jineen Boyle. Once she gives final consent, D. Lipinski will submit the application to central office for processing. The engineer anticipates being able to complete the video inspection this fall, complete design work and bidding during winter months and complete the storm sewer repairs during the summer of 2011.
3. D. Lipinski confirmed that Council granted conditional approval with a six month deadline for the Glen Rock Vista Plan during their April 21, 2010 Council meeting, so all conditions must be met by the October 20, 2010 Council meeting.
4. D. Lipinski provided six revised full size drawings of the Borough Street Map, for Council to continue to review. Revisions completed at this time include the name change for Lester Court, West Court added to the map, and the Shrewsbury Township Street (Wren) near the Third Annexation was removed. Council discussed the procedure for adopting new roads in the Borough. D. Lipinski stated that the Borough would incur significant expense for the approval of unadopted roads since the Borough does not currently have their own construction material specs for roads. The engineer uses Standard Engineering Practices, which are minimal standards, enabling the Borough to use their Liquid Fuel Funds for street projects. The Borough could use the Standard Engineering Practices, as a guideline, to develop their own requirements.
5. The Cottage Avenue demolition is complete and the disturbed area has been graded and seeded. The Borough Office received a phone call from Hillside Financial; they gave their property at 33 Cottage Avenue, to Jon Page, the owner of 31 Cottage Avenue.

* J. Glatfelter arrived for the meeting at 7:25 P. M.

6. D. Lipinski reminded Council that they should act on the Land Development Plan submitted by Jerome Litz during tonight’s meeting. Council discussed the definitions of single family, multi-dwelling, and two-family dwellings, as outlined in the Borough’s SALDO Zoning Ordinance.

Persons on Agenda
1. Jerome Litz – owns and resides at 106 Terrace Heights: Present Land Development Plan
   Mr. Litz presented his Land Development Plan for 107, 115 & 117 Church Street to Council. He asked for Council to approve his plan as presented and to waive all
engineering fees associated with the review of his plan. Council discussed possible conditional approval of the plan.

** Council recessed to Executive Session at 8:02 P. M. to discuss pending litigation.

**The council meeting resumed at 8:19 P. M.

For Jerome Litz’s Land Development Plan, R. Shiles moved to waive the requirement of repairing the curb and sidewalk and conditionally approved the Land Development Plan for 107, 115, and 117 Church Street, contingent upon the removal of Cedar Alley from the plans, as a Public Alley, and payment of all fees, with both conditions to be met within sixty days, seconded by K. Krebs. Motion unanimously carried.

Secretary’s Report
1. The secretary requested that the engineer be present while Council discussed the CDBG project, 13/17 Baltimore Street demolition. The secretary provided an updated project schedule from JMT for the project. An item of concern was the note that the site can only be backfilled and seeded. No other plantings or other improvements can be done for five years following the demolition. Council questioned this notation, but no one from JMT was present to answer the question. The solicitor is not familiar with the format used to prepare the bid documents by JMT. Council also discussed the disconnection of Water and Sewer at the sidewalk versus disconnecting at the main which is located on the opposite side of Baltimore Street (the creek side of the street). The Borough Engineer reminded Council that it is important to act on the contract to demolish the building. L. Cadwallader moved to execute the contract between Glen Rock Borough and JMT for the CDBG Project #45531639, Demolition of 13/17 Baltimore Street, seconded by K. Krebs. Motion carried.
