Persons on Agenda
1. Patricia Howell, President of Friends of the Library organization
   The FOL organization initiated Town Hall Meetings three years ago as an event sponsored by the library, but held by the Borough. Scheduled twice a year, the meetings have been held in April and October. Borough Engineer’s Report
1. Jineen Boyle has indicated that the Growing Greener Grant is in the signatory stage.
2. D. Lipinski supports the extension request by Eric Johnston for the Glen Rock Vista Plan, until April 12, 2011. Council discussed. L. Cadwallader moved to grant the extension request by Johnston and Associates, Inc. until March 16, 2011, seconded by K. Wells. After discussing that the Glen Rock Vista Plan does not qualify under Act 46, K. Wells amended the previous motion to grant the extension request by Johnston and Associates, Inc. until March 16, 2011, to meet all conditions outlined in the Borough’s April 26, 2010 approval letter (attached), seconded by L. Cadwallader. Motion carried. The solicitor stated she would write this letter.
3. D. Lipinski emailed sidewalk construction specifics to Brent Capatch of Kinsley Construction and informed him to contact Holley & Associates prior to the start of work, so an inspection schedule could be developed. The Borough does not have their own construction material specifics documentation; the engineer stated this document would need to be adopted by ordinance.
4. D. Lipinski spoke with Stevan Dietz, Penn DOT District Maintenance Manager on September 20 and told him that the sink hole at the Main Street Bridge was getting worse and more of the sidewalk has subsided. Stevan said he will have his field man check it out.
5. D. Lipinski reviewed the work being completed by Lester Matthews and informed the Borough that Mr. Matthews should install E & S measures for his earthmoving activities, as per Chapter 102 of the regulations. D. Lipinski also stated that if any developer is not compliant then the Borough has the right to contact York County Conservation District. Council discussed whether the storm water runoff is properly installed for Lester Courts. D. Lipinski suggested locating the approved drawing for Lester Courts to review for specifics.
6. D. Lipinski discussed the School Street Retaining Wall project with Mitch Weaver. Mr. Weaver would like the survey to assure the soil nails do not extend beyond the Street right of way and he took rough measurements of the wall but a survey of the wall location and elevation will yield a better design. The Borough Engineer will have to survey School Street, the wall and adjacent properties now or later in order to prepare a drawing to reconstruct the road, install drainage facilities and bid the project. The approximate cost of the survey is $4000.00. D. Young moved to
authorize James R. Holley & Associates, Inc. to survey School Street for a cost not to exceed $4000.00, seconded by J. Glatfelter. Motion carried.

7. D. Lipinski received information from Penn DOT regarding Columbia Gas cutting the gas line to 32 Main Street. Columbia Gas is waiting for easement approval from Mignano’s and then they will replace the gas line.

8. Engineer asked whether a design was available for the Borough’s Municipal Parking Lot project. Currently a design has not been prepared for this project.

9. Council and the engineer discussed the Hill Street storm drain. The current pipe may not be large enough to accommodate all storm water runoff. The engineer suggested having the WS use a camera to view inside of current piping. Although the Water & Sewer Authority has a camera, it is currently being repaired.

10. Council discussed the installation of standard curb and sidewalk at 13/17 Baltimore Street. If the contractor replaces the curb at this location, state permits will be required. The cost of applying for the state permits was not included in this CDBG project.

* D. Lipinski left the meeting at 8:15 P. M.
