Public Meeting: Cottage Avenue Street Reconstruction, 2008 CDBG Program Year Activity  
Engineer, D. Lipinski provided Council and the public with an overview of the above referenced project. Specifics for the project include but are not limited to the following items: ten inches of existing roadway will be excavated or milled, the sub base will be prepared and compacted, six inches of crushed stone base, 2 ½ inches of binder and 1 ½ inches of wearing surface will be installed. The roadway will be crowned along the upper curbed portion of the street. Where concrete gutters exist, they will be removed if possible and if not removed, asphalt paving geo-textile material will be installed to help prevent reflective cracking and provide additional strength to the paving section. The existing sidewalk that is not in use along 21 and a portion of 27 Cottage Avenue will be removed to widen and adjust the roadway location. A shrub at 21 Cottage Avenue that extends over the sidewalk will be removed. The steep portions of the roadway at both ends of Cottage Avenue will be super elevated based on the horizontal curves in the road and to direct storm water runoff to the existing inlets. Weather permitting; the project will take between two and three weeks. The project must be completed no later than September 30. The contractor will provide for emergency services to all residents that which is reasonably possible. Residents will be given a minimum of 48 hours notice prior to the start of construction.
The engineer will coordinate construction activities with the home owner that uses the handicap parking space, the Post Office, and Refuse/Recycling hauler. D. Lipinski will contact Columbia Gas to confirm old gas lines and if so, stress that replacement should occur prior to the construction of the new street. Residents asked where they can park. Hanover Street has public on-street parking, with the possibility of using the church parking lot. The Borough will contact the church to see if this is acceptable or not. Residents want to be informed of the pre-construction meeting so they can attend.

Persons on Agenda
1. Eric Jordan/Ms. Ward: YCCD – MOU Agreement
   E. Jordan introduced himself and explained YCCD’s reason for requesting a MOU Agreement is to avoid duplication of services and clearly define and coordinate services. Prior to this request, GRB did not have a MOU Agreement. E. Jordan did explain that participation is voluntary and items of concern could be removed on a case by case basis. M. Pokrifka expressed concern regarding withholding building permits for lack of paid fees. D. Lipinski expressed concern with the designation of duties and defining the responsible party to pay for services, if Council were to execute a MOU Agreement.

2. Keith Godfrey: Property owner/non-resident – Questions regarding repair to property off of Pleasant Street
   K. Godfrey asked if the Borough has a subdivision plan from 1975 which designates the length of Pleasant Street. There may be an easement to the street light on his property, off of Pleasant Street. M. Pokrifka stated that the ordinance adopting Pleasant Street is written with Pleasant Street intersecting with Circle Drive.

*L. Cadwallader arrived for the meeting at 7:52 P. M. She is late due to attendance at a Southern Regional Police Commission meeting.

   K. Godfrey said he is going to pull the subdivision plans for his property from the Courthouse.

   These representatives submitted a letter of concern with the current rental ordinance in Glen Rock Borough. They agreed that good landlords are “beat up” and bad landlords are still sliding under the radar. They do not like having their properties
inspected when they have a turnover of tenants. They suggested breaking GRB into rental districts, and scheduling routine inspections each year by district. They would prefer to pay for services on an hourly basis than per inspection. They suggested increasing the length of time to every five years for routine inspections and suggested eliminating change of tenant inspections. Council stated that it is the borough’s responsibility to provide health and safety to all residents. The Borough currently has 353 rental units. The owners/property management company individuals present tonight may represent approximately 120 units. Council is willing to consider some changes to the current ordinance. Council indicated that they would discuss and then get back in touch with the present representatives.

*R. McCullough arrived for the meeting at 7:55 P. M. He is late due to attendance at a Southern Regional Police Commission meeting.

The owners are petitioning their neighbors to then seek the Borough’s permission to be exempted from the PA Liquor Control Board’s noise regulations so they may then follow the noise rules as written in the borough’s Ordinance 450 (2008-02).

5. SR Police Chief J. Boddington: Police Update
Chief Boddington stated that he is trying to cut costs for his department while also considering expanding services to other municipalities. SRPD was approached by Loganville Borough. SRPD has proposed to provide five hours a week of service to Loganville Borough for traffic control and ordinance maintenance for $10,000.00 from June through December, 2011. Shrewsbury Borough and New Freedom Borough has already stated their approval of this proposal. W. Cadwallader moved to support SRPD providing five hours of service per week from June through December, 2011 to Loganville Borough, seconded by J. Glatfelter. Motion carried.

8. D. Lipinski reviewed drawings with Council for the 319 Grant. He will email a pdf file of the plans to Borough Office. In order to maximize parking spaces, D. Lipinski suggests using perpendicular parking spaces rather than one-way angled parking spaces. D. Lipinski is now waiting for J. Romig to complete his stream bank stabilization plan.
