Good received quotes from Springfield Contractors, with 3 different options, to convert one of the volleyball courts to horseshoe pits. Prices ranged from \$2,308.5 to \$2,889; the board approved unanimously, motioned by Good, the option to remove the sand (from the court closest to the road) to the other court, place top soil, seed and mulch for the proposed amount of \$2,445. The remaining volleyball court will have black plastic applied during the summer for an extended period of time in order to destroy (kill by 'baking') the bees/wasps nesting in that sand; approximate cost for the heavy duty plastic will be \$200.

The brick pathway created at the Memorial Circle has been partially completed with the bricks placed; grouting will need to be applied; goal is to have the work completed by Memorial Day. Tim Shearer is volunteering his time for this Sesquicentennial Project.

Board unanimously approved, motioned by Flemmens, that Greg Fink be authorized to remove the present flag pole lights, request a refund and place different lights at the flag pole. There has been an ongoing problem with the supply of replacement parts for the one damaged light; Fink's latest contact with the supplier indicated that the replacement parts would not be shipped until 6/1.

Good reported that she contacted O'Shea Lumber for bench replacement slats and was given a list of businesses that may be able to supply them. Krebs suggested using composite boards, received information from True Value, and will replace the slats on the bench nearest the tennis court

Good reported that the Borough Council, at their 4/18 session, awarded the baseball fence repair to A&M fencing.
